

# Juno Rescued Beagle Compassionate Shopping Guide

Your one source for all things compassionate. Company names may be abbreviated for space. This list combines both Leaping Bunny and PETA's compassionate shopping guides and is provided to you as a guide only. Any manufacturer can choose to become certified through either Leaping Bunny, PETA or both & are required to submit certifications that their products are not tested on animals & provide assurance that the ingredients they are using are also free from animal testing. Not all companies who are compassionate make the list. When in doubt always do a search.
